

# The KITCHEN CABINET

Commend us to the man who does not agree with you always. You might as well go out in the timber and talk to an echo as to the person who agrees to everything you say.

## SEASONABLE DISHES.

A delicious dessert is made by piling charlotte russe mixture on pieces of chocolate cake. Another combination with charlotte russe is the orange marmalade, using it as a garnish and serving the charlotte in sherbet glasses. The combination is especially pleasing.

**Pineapple Toast.**—Add a little sugar to the sirup in a can of pineapple, using half of a can of fruit for this dish. Add a tablespoonful of lemon juice and boil three minutes; then add the slices of pineapple and keep the whole hot. Cut rounds of sponge cake, butter and dredge with sugar, then set in the oven to brown. When ready to serve set a round of pineapple on the round of cake and pour over the sauce.

**Hashed Lamb With Rice and Peas.**—Chop fine edible portions of cold cooked lamb, to the meat; add a little of the broth or gravy and boiling water, season well with salt and pepper and heat very hot. Place the meat on a hot platter, surround with cooked, seasoned rice and surround the rice with seasoned green peas or the canned variety.

**Curried Potatoes.**—Peel a small onion and cut in thin rings; melt three tablespoonfuls of butter in a frying pan and cook the onion until it is softened and yellow; add six or eight sliced potatoes, sprinkle with salt, pepper and a level teaspoonful of curry powder, stirred smooth, with a cupful of broth; simmer ten minutes. Squeeze over the juice of half a lemon, turn and serve very hot.

A delicious combination when one desires something especially dainty is creamed celery with shredded almonds. Prepare a rich cream sauce, add cooked, tender celery and the almonds. Serve in timbale cases or patty shells.

**Baked Ham.**—The Swedish people use the following covering over a ham while baking. Take two cupfuls of bread crumbs, four tablespoonfuls of vinegar, one tablespoonful of mustard, one egg and a dash of pepper and salt to season, spread over the ham before baking. It forms a delicious crust and keeps in all the flavor of the meat.

If thou of fortune be bereft,  
And in thy store there be but left  
Two loaves—sell one, and with the dole  
Buy hyacinths to feed thy soul.

## PINEAPPLE JUICE.

Pineapple juice is one of the whole-some nonalcoholic drinks which may be bought in bottles or can be put up at home. The wonderful Hawaiian pineapple is now well known and appreciated all over the country. Medical scientists have been experimenting for years with the fruit and juice to discover its therapeutic qualities. It has been decided by these experts that while pineapple juice is not a cure-all it is especially good for the digestive organs and a great benefit to sufferers of sore throat. It is also used in the treatment of tuberculosis. It is a delightful drink served with carbonated water or simply as one does grape juice.

All cooks who use gelatin with pineapple know that they need to use more of the gelatin with pineapple than with other juices as it shows its digestive power on gelatin.

**Regents Punch.**—Take the juice of three lemons, one pound of sugar, two quart bottles of pineapple juice, a quart of strong Oolong tea and a quart of carbonated water.

**Fruit Punch.**—Take two lemons, two oranges sliced thin, add two quarts of pineapple juice, one quart of fine large strawberries or raspberries, one quart of Apollinaris water and a pound of sugar. Serve with plenty of ice.

**Pineapple Punch.**—Add to the juice of three lemons a pound of sugar, three quarts of pineapple juice and six slices of pineapple, cut in pieces. Serve in a punch bowl with a quart of carbonated water and a large piece of ice. This will serve a small company liberally. Let stand a while to get thoroughly cold and somewhat diluted with the ice.

Pineapple juice may be used in any number of ways as desserts. A delicious trappé is the following: Boil

together for a quarter of an hour, one and a half pints of water with two cupfuls of sugar. Pour the hot sirup over a can of grated pineapple, then add the juice of three lemons, and let stand until cold. Strain and add a pint of pineapple juice and a pint of water. Freeze to a mush.

## COMPANY LUXURIES.

These dishes are not for daily use in the ordinary household, as they are either too much work to prepare or are too expensive.

**Fillets of Game or Chicken.**—Cut the meat from the bones in wide strips and cook it in well-buttered skillet until brown, then add a tablespoonful of butter, two tablespoonfuls of currant jelly and the strained gravy left from the first cooking of the fowl, or venison. Have molded a ring of rice, place in the oven after spreading with butter and brown. Serve on a round dish and put the fillets in the center with the sauce poured over. A teaspoonful of curry and a teaspoonful of chutney added to the sauce will add variety to this dish.

**Eggs With Cheese.**—Beat six eggs slightly with a fork. Place in a chafing dish a tablespoonful of butter, and when this is melted and hot add two tablespoonfuls of grated cheese. Stir until smooth, then add the eggs and season with paprika and salt. Cook until the eggs are scrambled. Serve on toast.

**Nesselrode Pudding.**—Make a custard of three cupfuls of milk, 1½ cupfuls of sugar, the yolks of five eggs and a half teaspoonful of salt, strain and cool; add a pint of thin cream, a fourth of a cupful of pineapple sirup and 1½ cupfuls of cooked and mashed chestnuts. The nuts are put through a strainer after cooking. Line a two-quart melon mold with a part of the mixture and to the remainder add one-half a cupful of candied fruit, cut in bits, a quarter of a cupful of sultana raisins and eight chestnuts broken in pieces and soaked in cherry juice for a few hours. Fill a mold, cover, pack in salt and ice and let stand two hours. Serve with whipped cream, sweetened and flavored with Maraschino sirup.

**Bombe Glace.**—Line a mold with sherbet or water ice, fill with ice cream or thin charlotte russes, cover, pack in ice and salt and let stand two hours. Macaroon ice cream is another good combination.

## DESIRABLE DUMPLINGS.

Dumplings are a great emergency dish when the chicken or stew seems too small for the family. A nice fluffy lot of dumplings to surround the platter of meat makes a most satisfying sight.

**Dumplings.**—Add one beaten egg to a cupful of milk, a little salt and two teaspoonfuls of baking powder, sifted with flour enough to make a mixture stiff enough to drop from the spoon. Flours differ so in thickening power that no exact measurement can be given. Drop them on the boiling stew with a teaspoon and they will cook in eight minutes. Leave them covered during the entire time so they will be puffy and light.

**Grease Dumplings.**—Just before putting the bread into the pans, take out about half a loaf, add butter and make small biscuits. Let rise a few minutes until about the size of a walnut. Drop them in the hot broth and cook, carefully covered, twenty minutes. If large dumplings are made the time must be longer for the cooking.

**Potato Dumplings.**—To a pint of milk add a beaten egg, a little salt, a cupful of mashed, hot seasoned potato, and flour to make a drop batter. Add two teaspoonfuls of baking powder to the last of the flour, mixing well. Drop in small spoonfuls in chicken or beef broth and cook twenty minutes.

**Potato Dumplings With Sauce.**—Cook and rice six medium sized potatoes; add a pint of bread crumbs, browned in butter, also two well beaten eggs and salt enough to season. Form in two halves and steam twenty minutes; place on a dish and pour over them a half cupful of melted butter.

**Sauce.**—Brown one teaspoonful of onion and a tablespoonful of flour in two tablespoonfuls of butter, then add a cupful of elder vinegar and stir until it boils, season with salt to taste.

Nellie Maxwell

## GATHERED FACTS

A spring attachment to prevent the lid falling of features a recently patented tea kettle.

Operated entirely by electricity, a dry dock in Holland can lift vessels of 8,000 tons register.

An inventor in Russia has developed a method for making felt boots and knit goods from dog hair.

A holder for ice cream cones has been invented that enables them to be filled without danger of breaking.

For transporting meat a refrigerator car has been invented in England that is claimed to maintain a temperature as even as in the more elaborate refrigeration plants of ocean-going vessels.

A motor boat that has been invented that steers with exceptional speed and accuracy under all conditions, carries its motor and propelling mechanism in a hollow fin that also serves as a keel. Notes on the sides feature a new board for holding writing paper, the idea being that rubber bands can be placed over them to guide a person's hand over unrulied paper.

## DAILY PUBLISHERS TO HOLD MEETING

BIG PROGRAM IS PLANNED FOR WINTER MEETING OF ASSOCIATION AT COLUMBUS.

Western Newspaper Union News Service. Columbus.—One of the best programs in the history of the Associated Ohio Daily Press is being arranged for the mid-winter meeting at Columbus Jan. 25 and 26. Acceptances have been received from Hon. Don C. Seitz, managing editor of the New York Herald; Hon. Walter Williams, dean of journalism, Columbia university, Columbia, Mo.; Hassal T. Sullivan of Richmond, Ind., president of Indiana City Editors' association; and Joseph S. Myers of the department of Journalism of Ohio State university, insuring a program of unusual strength and interest.

G. W. C. PERRY,  
President of the Association.

The big feature of the convention will be the social session and banquet at the Neil house Tuesday evening, Jan. 25. This will be an occasion when the ladies will be an important factor in the function and it is expected that the members of the association will bring their wives and daughters to share with them in the pleasures of the evening. G. W. C. Perry of Chillicothe is president of the association and L. H. Brush of Salem secretary. Members of the executive committee of the association are: H. E. Taylor, Portsmouth; F. M. Rietzel, Warren; Malcolm Jennings, Columbus; C. A. Spencer, Newark, and J. R. Alexander, Zanesville.

**Urges Practical Industrial Education.**

Columbus.—"Farm miracles can be worked with alfalfa," so F. D. Coburn, former secretary of agriculture of Kansas, declared in address at the annual meeting of the state board of agriculture, held at chamber of commerce. While the production of alfalfa is comparatively new in the United States, the plant itself is centuries old, having been cultivated in Biblical times during the reign of Nebuchadnezzar. Alfalfa serves a triple purpose, the speaker said. It rejuvenates the ground on which it is grown, makes a profitable crop and gives more nutriment for live stock than any other forage crop. As a fertilizer it takes from the air 10 times as much nitrogen as it can use, this surplus restoring the vitality of worn-out lands. One acre of alfalfa will yield three times as much protein as an acre of clover and nine times as much as an acre of timothy and 12 times as much as an acre of broom grass. With corn or corn silage, it makes a perfectly balanced ration for dairy cows, driving horses, sheep and domestic fowl.

Gov. Willis was the first speaker. He said that better roads and better rural schools would not only aid in keeping the young folks on the farm and thus check the exodus from farm to city, but would also end the decline of rural churches. He said it was rank demagoguery for any one to advocate better schools and roads and then complain at the levying of taxes for such improvements. He predicted that better roads would lower the cost of distribution of farm products, thus benefiting both the producer and consumer. He said it now cost the farmer 25 cents a ton to haul produce a mile. In some European countries which have good roads the cost is less than one-half of this. He urged the farmers to support the state board of agriculture and made a plea for more practical industrial education in the schools.

**Will Increase Wages.**

Steuensville.—I. C. Kirk, president of the La Belle Iron works here, has just announced that his company would grant the same concessions to unskilled labor as the United States Steel Corporation. More than 1,000 men will be affected.

**County Commissioners to Meet.**

Columbus.—The county commissioners of Ohio held their annual meeting here. S. L. Irons of Lebanon is president of the organization. The commissioners discussed the question of good roads, giving this subject more attention than any other one.

**Oppose Preparedness.**

Massillon.—Miners of subdistrict No. 6, United Mine Workers of America, in their annual convention here, adopted resolutions condemning President Wilson's preparedness plans.

**Suicide Couldn't Wait.**

Cincinnati.—Frank L. Sturdevant, aged 45, a saloonist, committed suicide with chloroform after penning a note expressing his sorrow for his act, but declaring he could not "wait another minute."

**Ohio Town Mayorless.**

Zanesville.—Fraser's year is an Ohio mayorless town. Attorney A. J. Riley who was elected last fall, won't serve and John Bagent, president of the council, says the office cannot be thrust on him.

## THE EUROPEAN WAR A YEAR AGO THIS WEEK

Jan. 17, 1915.  
Allies took German trenches in Belgium and closed in on Lille. Russians took Kirilbaba pass in Bukovina and pushed along right bank of Viutula. Germans were pushed back on Plotsk. Turkish corps was put to pieces in the Caucasus. Antiwar demonstration in Vienna; Czech officer executed for treason.

Jan. 18, '915.  
Fierce fighting took place at La Boisselle. Germans occupied Kleve and Russians fell back to Radom. Plotsk evacuated by the Germans. Paris darkened at night by police order.

Jan. 19, 1915.  
French advanced in attempt to cut off St. Mihiel. German aircships dropped bombs on Ya-mouth, King's Lynn, and other English towns, killing four persons. French in forest of Le Pretre within ten miles of Metz. Austrian army flanked by Russians in Bukovina.

Jan. 20, 1915.  
British troops captured Freytinghuyzen. Russians drove back Austrians in Hungary and marched on Jacobeni. Dutch naval patrol boat sunk by mine, five men drowned. Governor of Cracow ordered partial evacuation of the city.

Jan. 21, 1915.  
Germans repulsed in the Ardennes woods by French and Belgians. French retook trenches at Notre Dame de Lorette. Germans retook the forest of Le Pretre.

Russians renewed their offensive against Milawa. Austrians routed Russians from intrenchments along the Donajec. German cruiser Karlsruhe reported off Porto Rico.

Allied airmen dropped bombs on Essen. Jan. 22, 1915.  
Fierce fighting in Hartmannsweilerkopf region. New Russian army near Prussian border. Russian invasion of Hungary was halted.

German submarine sank British steamer Durward. Maj. Gen. Sam Hughes began enlisting third Canadian contingent. Russia ordered expulsion of Austrian and German subjects.

Jan. 23, 1915.  
German troops were massed in Hungary. Russians made further advance in the north. German airmen dropped bombs on Dunkirk. Mme. Grouitch came to America seeking seeds for Serbians. Germans renewed their activity near Ypres and bombarded left wing of allies.

Severe battle in the Argonne region. German supply ship was sunk by Australian cruiser.

Italian vice-consul at Liege dismissed by Germans for aiding Belgians.

**TAKEN FROM EXCHANGES**  
In Sweden a mile is 11,690 yards. Scotland has the longest bridge in the world—the Tay, two miles and 70 yards in length. It is said that a humming bird when stripped of its feathers is no larger than a bumble bee.

A duster made of cheesecloth, soaked in turpentine and then dried, will accumulate dust instead of scattering it.

The Cape Cod canal is now restricted to boats of less than 18 feet draft, but it will soon be deepened to a 35-foot waterway.

A Russian inventor claims to have perfected a motor that can safely utilize electricity drawn from storm clouds.

A partitioned grave dish has been invented that permits fat gravy to be poured from one side and lean from the other.

The governments of both Denmark and Sweden are investigating a recent discovery of coal on the island of Bornholm, a Danish possession close to the Swedish coast.

So that bicyclists will not have to wear trouser guards a North Carolina has invented a large disk to be attached to the outside of the forward sprocket of a wheel.

The needless infantile death rate owing to neglect and ignorance costs this country \$3,000,000 a day.

One of the famous carillons of Flanders, a magnificent chime of bells, has been transferred to the English village of Cattistock, where great interest is taken in the frequent concerts for which use is made of them.

The fossil of an elephant that is being excavated from a gravel bed near Chatham, England, is declared to have supported the carcass of an "elephas antiquus" of the early pleistocene period, "a puny little runt of a beast but a trifle larger than a mammoth."

Ornamental handkerchiefs formerly were worn in the hat by gentlemen as tokens.

Gypsum, which of late years has been supplanting lime in cement, can hardly be considered a modern building material, investigations having proved that the pyramid of Cheop was stuck together in places with generous dabs of it some 6,000 years ago.

For many years thrown into the sea as worthless, a low grade Cuban molasses is being exported to the United States in increasing quantities for use in road building, distilling and other purposes.

## BUCKEYE NOTES

News From All Sections of the State

Western Newspaper Union News Service. Cincinnati.—Citizens of northern Kentucky and southern Ohio were excited early one morning by the falling of a meteor about two and one-half miles from Watons, Ky. The fall was followed by a terrible rumble and a flash that could be seen for miles. It was at first thought the powder mills at Verona, Ky., or Kings Mills, O., had been blown up.

Upper Sandusky.—Wyandot county authorities are diligently searching for Delmar Rummel, a barber at Wharton. Rummel disappeared from his shop Nov. 17, saying he would return in a few minutes. He has not been seen since. His clothes still hang in his room and a sum of money remains to his credit in a bank.

Youngstown.—Strikers at the mills of the Republic Iron & Steel Co. have just ratified the terms of the wage agreement reached at a conference between a committee of strike leaders and representatives of the company. The men voted to return to work.

East Liverpool.—John McElroy, 62, car inspector, was found dead between the C. & P. railroad tracks in Wellsville, west of here. As there were no marks on the body, it is thought he died from heart disease.

Delaware.—Mrs. Mary Poppleton, 65, widow of Early F. Poppleton, former congressman and United States senator from Ohio, died at her home here. Two sons, Wm. M. and E. S. Poppleton, reside in Detroit.

Lorain.—The Lorain County Farmers' Institute association has just announced an institute at Elyria Jan. 21 to 23, one at Pittsfield Jan. 19 to 21 and a third at North Ridgeville Feb. 15 and 16.

Sandusky.—Former Representative Cyrus B. Winters is critically ill at his home in Castalia.

Akron.—Forty thousand dollars for the loss of both hands in an accident Dec. 27 in the Electric Rubber Co.'s plant, Barberton, has been asked by Lawrence Duma, 28, in a suit filed in common pleas court. Duma alleges his hands were drawn into the machinery of the factory by the failure of the company to provide safety guards.

Lancaster.—Quartermaster L. F. Eschbach, guard at the Lancaster Boys' industrial school, has been exonerated from blame for the shooting of John Hirtz and Lawrence Darrow, inmates. He only shot to scare and the boys were not hurt.

Lorain.—Alvin Kolbe, aged 21, member of a prominent Amherst family, mysteriously disappeared in Los Angeles, according to a telegram received by his father, Henry Kolbe.

Cincinnati.—Mack McCarty, aged 49, was instantly killed when a large water main dropped on him when it fell from a rigging that was lifting it out of a ditch.

Xenia.—Harry Baker, aged 20, was fatally burned when a lamp exploded, throwing burning oil on him and firing his clothing.

Fremont.—The corridors and offices in the courthouse were flooded and records damaged when someone entered the building and turned water into pipes and radiators of the heating plant after shutting off the gas under the boilers. Officials believe it was an attempt to ruin the old structure, thus compelling the erection of a new one.

Columbus.—At the Ohio State university from Jan. 31 to Feb. 4, inclusive, 126 boys who have taken part in county contests conducted by the agricultural extension department will contest at a state stock judging contest, for which prizes are offered by the agricultural colleges.

Elyria.—Common pleas court here has just decided the contested majority of Lorain in favor of Mayor Leonard Moore, Republican, who took office Jan. 1. Moore was elected by 13 votes over H. P. Neilson, Democrat, who contested.

Akron.—Dominick Sandow, 25, who says he is a brother of Eugene Sandow, physical culturist, was fatally shot here in a brawl. Sandow was taken to City hospital with two bullets in his abdomen. His assailant escaped.

Cleveland.—John C. Bissell, former deputy county treasurer, fell dead at the home of his son-in-law. Heart disease was the cause of death. Mr. Bissell was 75 years old.

Kenton.—Frank Scott, 25, died at a hospital here from injuries suffered when he leaped from a speeding automobile, thinking the driver had lost control of the machine.

Akron.—Three footpads held up and robbed Marshal Harry Roam, Cuyahoga Falls' night police force, taking away his night stick, revolver and badge.

Port Clinton.—Clyde Beggs, aged 50, died of apoplexy at his home in Gypsum.

Cleveland.—Church members of all denominations in this city soon will be asked to devote the entire month of March to daily and nightly services, presided over by traveling preachers as a part of a national campaign to bring about world peace at the close of the present war.

Columbus.—Dr. S. R. Best, chief statistician in the state bureau of vital statistics, is seriously ill in a Columbus hospital. He is suffering from an attack of gall stones. Dr. Best's home is in Centerville, Knox county. He has charge of reports of local registrars.

Dayton.—Edwin J. Brown, 44, for the last seven years superintendent of the public schools, is dead of Bright's disease. He was regarded as one of the foremost educators of the state.

Springfield.—Aunt Mary James, who was taken ill recently with the grip at the Odd Fellows' home, is dead. She was within five months of her 100th anniversary.

Columbus.—H. M. Looker, a clerk, was found in a room at the Davidson hotel here with three self-inflicted bullet wounds in his left breast. He may die.

"Now that the football season is over and it's rather too early for baseball, I guess our boy at college will be able to do a little studying," said Mrs. Dubwaite.  
"I'm afraid not," answered Mr. Dubwaite. "He writes me that his social duties have been sadly neglected."

## PROVEN SWAMP-ROOT AIDS WEAK KIDNEYS

The symptoms of kidney and bladder troubles are often very distressing and leave the system in a run-down condition. The kidneys seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles.

Dr. Kilmer's Swamp-Root, which soon heals and strengthens the kidneys is a splendid kidney, liver and bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who use it.

A trial will convince anyone who may be in need of it. Better get a bottle from your nearest drug store, and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

# The Wheat Yield Tells the Story

of Western Canada's Rapid Progress

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country, while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

Write for illustrated pamphlet, reduced railroad rates and other information to Superintendent Immigration, Ottawa, Canada.
